

CLARK TABLE

A communal work table perfect to share ideas, play a game, develop a project or eat a meal. Inspired by the building cuts of Gordon Matta Clark, the bold shape will activate any space. Whether it is officework or homework the Clark table has a place to store all the essentials right where you want them - at the table. The rounded triangular shape enables easy conversation while the oversized top gives everyone space to do their thing.

The central storage with rotating hatch door is ideal for shared items and electronic gear with cable slots distributed around table.

White oak veneer top with base in choice colors / other woods available.
